

Summary and knowledge check

6 minutes

In this module, you learned about the four-step process to analyze device and application readiness and the Microsoft tools to help you get ready for your move to Windows 10 and Microsoft 365 Apps.

Check your knowledge

1. Any COM add-ins and VBA macros your organization used on previous versions of Office (back to Office 2010) will continue to work on the latest versions of Office without modification.

- ☐ True
- ☐ False

2. In the first step of the readiness process, which tools are used to create an inventory?

- ☐ Windows 10 compatibility scan
- ☐ Desktop App Assure
- ☐ Readiness Toolkit for Office, Desktop Analytics, or System Center Configuration Manager software and hardware inventory

3. The four steps for device and app readiness are: 1) Take an inventory, 2) Plan your resources, 3) Test updates for compatibility issues, 4) Remediate issues.

- ☐ True
- ☐ False
