

# Summary and knowledge check

5 minutes

In this module, you learned how apps, bots, and connectors increase the power of Microsoft Teams and how to manage apps, bots, and connectors as you plan your organization's Teams rollout.

Now that you have completed this module, you should be able to:

- Describe what Microsoft Teams apps, bots, and connectors are and what they do.
- Explain how to manage apps through app policies.
- Configure and manage bots for private chats and channels.
- Describe ways you can interact with apps and services in Teams.

## Check your knowledge
