

Summary and knowledge check

3 minutes

In this module you learned about delivery options for installing applications, and about Click-to-Run packaging with Microsoft 365 Apps and how it provides new options to configure, deliver, and keep your apps up-to-date.

Check your knowledge

1. Microsoft 365 Apps is available in both 32-bit and 64-bit versions - it doesn't matter which version you install.

- ☐ True
- ☐ False

2. Microsoft 365 Apps and Office 2019 clients use which installation technology?

- ☐ UWP
- ☐ Click-to-Run
- ☐ MSIX

3. Which of the following tools does NOT work with MSI-based packages?

- ☐ System Center Configuration Manager
- ☒ Desktop App Assure
- ☐ Office Deployment Tool

4. Which approach would you use to deliver business apps?

- ☐ Application deployment in Configuration Manager
- ☐ Click-to-Run
- ☐ Offline package injection
