

# Summary

6 minutes

A sizeable percentage of Woodgrove's Windows 10 devices were out of support or nearing the end of support. Previously you presented a plan to help your organization to stay current with the latest Windows 10 feature updates from Microsoft. Now you helped Woodgrove prepare its environment for the Windows 10 feature update.

Without preparation, Woodgrove's environment wouldn't have been able to support the update. Instead, Woodgrove was able to ensure its environment is ready for the update. So now, it can start Pilot deployment.
