3 minutes

Answer the following questions to see what you've learned.

1. Where are dataset-scheduled refreshes configured?

○ Power BI service

○ Power BI Desktop

○ AppSource

2. What reserved parameters configure the start and end of where Incremental refresh should occur?

○ Start and End parameters

○ StartRange and EndRange

○ RangeStart and RangeEnd

3. What is the difference between Promotion and Certification when you are endorsing a dataset?

○ Promotion does not need specific permissions while Certification requires permission from the dataset owner to access to the dataset.

○ Promotion is for broad usage while Certification needs permission granted on the Admin Tenant settings.
